Mr. Steven Adere informed Members that the motion (which had been put forward by the Board) had been necessitated by of the original rigid structure of the Association. He informed members that a Revolving Fund would ensure that the Association’s funds remain available to finance its continuing operations without any fiscal year imitation, because this fund, once capitalized, would refinance itself subsequently through repayments from earlier loans. This would ensure sustainability of the fund.

He further shared that HELB has the ability to reach out to corporate and individual partners /donors to grant gifts, donations, grants and endowments to the fund thus enabling the Association advance even more credits to students.

He assured members present that the students would be allowed to repay their funds with very little interest, depending on the modalities that would be negotiated by the Association. Further, he stated that with the Revolving Fund, students would be guaranteed the maximum of sum of KShs. 60,000/= from HELB and the ABA will then match the difference. This would in turn help the Association save money and support more students thus freeing up funds to support other activities beneficial to the other students.

Interventions from members

The motion was well received by Members with Mr. Eric Theuri commending the Board for coming up with such a product. His sentiments were echoed by Mr. Elijah Mwangi.

Mr. Geoffrey Monari from HELB also took to the podium to further buttress the information given by Mr. Steven Adere. Thereafter, the motion was unanimously passed following a proposal by Mr. Moses Kurgat who was seconded by Ms. Wanjiru Ngige.
