WHY LEGAL MANAGEMENT SYSTEMS (LMS) ARE THE FUTURE OF LEGAL PRACTICE

What is Legal Management software?

A Legal Management System (LMS) is a software solution built around the need for Law Firms and Legal Departments to manage matters more effectively, saving precious time for legal teams to focus on core legal tasks. An LMS solution can be specific, eg. Litigation Matter Management System, Contract Lifecycle Management System. It can also be an all-encompassing system that caters to all departments including Admin. Billing and Payroll.

How to Choose a Good LMS

Here are a few functionalities you should look out for when choosing an LMS:

1. **Dedicated Document Management.** Consider the document management facilities within the system and ensure the case automation process is tailored for ease by your team. Security and accessibility are key, as well as hosting, storage and integrations with already existing systems in the firm/legal department.
2. **Templating and standard documentation.** The platform should make provision for authoring, editing, and reviewing of documents as well as track all the changes within every document.
3. **Ease of Document Automation across platforms.** You should be able to use the documents in the system in other platforms and formats, as well as be able to upload documents in varied formats.
4. **Collaboration and workflow functionalities/Diaries/Calendars and task management functionalities** will enable teams to collaborate and ensure seamless workflows. Ensure that digital signatures are secured, alternatively, integrate your LMS with secure e-signing platforms.
5. **Analytics** will enable you to have a bird's eye view of where the law firm or Legal Department is headed, for it will use collected data to provide intelligent information which will be key in data-driven decision-making.
6. **Support.** Choose a provider who gives you support day to day, and who can address your concerns effectively.

CONTD...

Benefits of using a Legal Management Software

- **Create a digital back-up Database:** The LMS enables you to create a data center of your Law Firm which facilitates safety, accessibility and longevity of all your firm's documentation.
- **More billable hours:** With the administrative work of filing, and having a full documentation center taken care of by the system, advocates spend more time on outcomes, which increases billable hours for your firm.
- **Increase Staff Productivity:** Suit Management is at the heart of our system, and with all the paperwork, the system also enables you to stay abreast with the progress and updates of all the matters from day to day.
- **Happier clients:** Send quick updates to clients and stay on top of the details of their cases with the click of a button.
- **Create more efficiency in your law firm** by streamlining admin tasks and creating order. You will also be able to align dates and action points so that actions that need to be taken before particular dates are taken.
- **Better collaboration** within departmental and interdepartmental teams. The system enables you to create workflows, assign tasks and align them in the system calendar. You can set up review and approval channels and matter handling becomes a breeze!
- **Support remote working:** remote working has become a modern reality, and Law Firms are taking steps to ensure the productivity of their staff even when they work remotely. Elixir enables you to keep the remote and on-site teams in tandem using our technology.
- **Increase your competitive advantage:** Adoption of Technology is a key factor for Law Firms that need to attract high-level clients and push their practice to the next level. Adoption of technology indicates capacity and responsiveness to businesses seeking to invest in Kenya, and a Tech-enabled Law Firm is the law firm of choice for such investors and businesses.

COURSE: BOARD SECRETARIAL PRACTICES (3 LSK CPD POINTS)

DATE: 18TH – 22ND MARCH, 2024

VENUE: **NAIVASHA**

ABOUT THE COURSE

Boards of directors have a direct impact in shaping the success of the organizations they govern. In order to be effective, they ought to have a thorough grasp of their authority, mandate, roles and responsibilities as well as the organization's operational environment and regulation.

The **Board Secretarial Practices** training is designed to equip participants to understand and implement sound policies and ongoing procedures for effective governance in a manner that complies with set legislation and various guidelines. The aim of the training is to equip participants with an in-depth appreciation of operations and processes of boards. It will similarly explore a practical application of how boards and management can work together to enhance board operations within the organization's operational environment and regulation.

The outcome of the training will be that participants will gain practical insight on how to set up structures, policies and procedures for governance, leadership, authority, decision-making accountability and transparency.

TRAINING FOCUS

The focus of the training will include;

- f) Board-management interactions;
- g) Effective board operations and processes;
- h) Role of the board in organizational risk management;
- i) Financial management and procurement;
- j) Organizational sustainability;
- k) Measuring board performance: induction, empowerment and appraisal;
- l) Corporate governance from the Mwongozo perspectives;
- m) Role of the board in ensuring legal and regulatory compliance;
- n) Emerging corporate governance challenges and the way forward.

COURSE OUTCOME

By the end of the course the participant will be equipped to;

- a) Relate corporate governance theory and corporate governance in practice;
- b) Describe a typical board structure, operation and processes;
- c) Demonstrate an understanding of the roles and responsibilities of the board, its committees and the individual members, on the one hand, and the management, on the other hand;
- d) Explain the rationale and purpose of the Mwongozo Code;
- e) Apply the knowledge and skills gained to their respective organizational demands;
- f) Help their respective organizations to establish effective strategies and systems for board operations and processes and their interface with the management;
- g) Manage the challenges attendant to the interaction between the board and the management of an organization.

TARGET AUDIENCE

The training is suitable for the following, amongst others:

- a) Board members of state corporations;
